Concur. Going to send it to the state today after circling back to Lynn. Alyse is going to prep parties for it coming their way next week. May delay sampling by 1 week but will give state and PRPs sufficient time to see it before moving forward (still gets samples collected in February per our recent mention with CAG and press covering that event).

Subject: RE: Sediment Sampling

Ben,

I know that Brad and Tom discussed the sediment sampling with MDNR reps previously - but it is possible that others with the state, that were not involved in those discussions, may have questions, so please wait on the public release. We will not request comments.

We may also want to share the Parties before going public.

Sorry for any confusion.

Thanks,
Justin

Ex. 2 - Internal Rules and Practices of Agency

Thanks, Justin.

Would that include waiting for comments back, or simply sharing with them first?

Subject: FW: Sediment Sampling Call

Ex. 2 - Internal Rules and Practices of Agency

Hi Ben,

I think EPA wants to share the sediment QAPP with MDNR before we go public. I'll ask Brad to confirm my understanding when he gets back from lunch.

Thanks,
Justin

FYI, just spoke with Tiffany Drake at MDNR, she is sending the state's ARAR's letter shortly. Had her change the letter address from Jeff Field to Lynn. She will email me a copy which I will immediately distribute to team.
